PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance / Project-Based)

Remote — 2023–Present

- Built and deployed full-stack applications using Next.js, React, Node.js, and MongoDB.
- Designed secure REST APIs with authentication (JWT, cookies).
- Developed reusable, scalable frontend components with optimized rendering.
- Integrated third-party APIs and followed clean architectural patterns.
- Used Git/GitHub for collaborative workflows and version control.
- Ensured responsive layouts and smooth user experience across devices.

PROJECTS

Todo Web App — MERN Stack (Full-Stack)

- Full CRUD task manager using Node.js, Express, MongoDB.
- Responsive React UI with Tailwind CSS.
- Implemented routing, validation, API integration, and error handling.
- Deployed on Vercel with optimized performance.

Fruit Store — E-commerce UI (Next.js)

- Built modern, responsive e-commerce pages with Next.js.
- Implemented smooth routing, transitions, and lightweight state management.
- Structured for scalability and fast rendering.

Authentication Template — Reusable Login System

- Built secure authentication with validation and reusable components.
- Designed modular structure for easy integration into full-stack apps.

3D Shirt UI Concept — Frontend Animation Experiment

- Developed interactive 3D shirt interface using modern animation tools.
